

MARIANA FRANCO

FULL-STACK WEB DEVELOPER

ABOUT ME

I am a Full Stack developer who is passionate about exploring new technologies and solving problems. I have experience working in a fast-paced environment and am skilled in managing deadlines while maintaining a high level of quality in my work. Additionally, I love to communicate and enjoy collaborating with team members to achieve shared objectives. My motivation lies in continuous growth, and I am always eager to learn and expand my skillset to stay up-to-date with the latest industry developments.

Honesty
Commitment
Responsability
Teamwork
Communication
Eager to learn

PROJECTS

Ironhack

MEGA SUPER-DUPER SPACE GAME

A space-themed game where the player's main goal is to navigate through a field of obstacles and avoid debris and then, the boss!

Through this project, I gained experience in game design principles and developed my skills in DOM Manipulation, canvas, HTML, and CSS as we have created the game's graphics and user interface

LISBON FOR ALL

A platform aimed at helping people with disabilities find accessible and enjoyable places to visit in Lisbon. Our goal was to create a modern and visually appealing design that would promote accessibility and raise awareness of the issue.

To achieve this, we utilized various technologies including Handlebars, Bootstrap, pure CSS, JavaScript, MongoDB, Cloudinary, and Cyclic.

<https://lisbonforall.cyclic.app/>

TOCHECK

A platform aimed to organize yourself better, being able to add some important things that you have to do and add also a description to it.

You are also able to use the Pomodoro technique to be able to focus on a specific task.

To achieve this, I have used some technologies, mainly React, HTML, CSS, Bootstrap, Postman, Axios, API, Javascript, MongoDB, Cloudinary, Cyclic & Netlify
